1. Introduction

This Online Safety Policy outlines the commitment of to safeguard members of our school community online in accordance with statutory guidance and best practice.

Each Voyage Academy recognises that internet, mobile and digital technologies provide positive opportunities for children and young people to learn, socialise and play but they also need to understand the challenges and risks. The digital world is an amazing place, but with few rules. It is vast and fast moving and young people's future economic success may be partly dependent on their online skills and reputation. We are, therefore, committed to ensuring that all pupils, staff and trustees will be supported to use internet, mobile and digital technologies safely.

We are also committed to ensuring that all those who work with children and young people, including their parents/carers, are informed about the ever-changing risks so that they can take an active part in helping children and young people navigate the online world safely and confidently.
